REXTON LOSS/DAMAGE POLICY

If a hearing instrument is lost or damaged during the original warranty period, Rexton will replace the product with the exact model or equivalent/circuit/options/color/side (R/L) as the ORIGINAL hearing instruments. Rexton Loss/Damage replacement is allowed only once per instrument.

A Loss & Damage form completed by the Hearing Health Professional and the patient with both parties signatures must be mailed or faxed to the Rexton Customer Care department. The serial number of the lost instrument (and a new impression for custom products) must accompany the form. A non-refundable deductible fee will be applied to product replaced under the plan.

Rexton's Loss and Damage Policy does not apply to Mini Blu/Blu RCU, Chargers, Remote Controls, Earmolds or other accessories. Instruments that have been replaced under the Loss and Damage Policy cannot be returned for credit.

Please note that if a replacement instrument was issued under Rexton's Loss and Damage Policy for a lost device and the original instrument is recovered; it will not be eligible for repair or service by Rexton.

Rexton is not responsible for incorrect serial numbers provided on this form.

I certify that the loss or damage claim did not intentionally occur, and that no attempt has been made to deceive or defraud the company in any manner. I also understand that executing this form will result in a purchase charge for the replacement device and that the replacement device cannot be cancelled or returned for credit once invoiced.

By executing this replacement request, I understand that if the original hearing instrument is recovered and sent to us, we will reclaim that device.

I have read and agree to the Rexton Loss/Damage Policy.
